3:00 pm - 3:30 pm	Announcements followed by Trashion VII - Grayson College Art Department	Fashion Show of designs made from recycled / repurposed materials

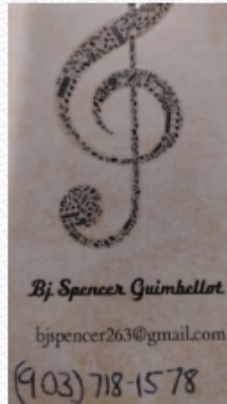

The Red River Valley Dulcimer Club is a group of musicians from the north Texas and southern Oklahoma area. We love getting together to enjoy the great traditional music of the 1800's from the Appalachian Mountains.

Our goal is to promote both the music and the traditional instruments created to play it. Unlike many clubs, our membership is free. Anyone playing an acoustic instrument is invited to join our club.

We will be playing traditional music with Appalachian mountain dulcimers and hammer dulcimers along with other instruments. We will also demonstrate the dancing toys that were so popular with the children in the old days.

[Keepers of the Sound God.](#)

BJ Spencer is a Speaker, Musician, and Singer. It is his hope that through his personal story and music he can help others overcome depression and anxiety and find peace in their daily life. He was born in Texas, raised in North Louisiana and moved back to Texas during his early teenage years. He graduated high school in 2000 and thereafter earned an Associate's degree in Music, played in a Christian Rock Band band for several years. He has had played multiple places some of which include South Carolina Music Festival, Rocket-Town in Nashville, Northeastern State University, Lifelight Music festival, Relay for Life, Grayson County College, Rialto in Denison. Alongside his musical endeavors he worked with at risk and homeless youth for 12 years as his profession. He credits his faith, family, and friends for getting him to where he is today.

Martial Arts provides the benefits of increased mobility, improved strength and power, improved flexibility, improved coordination, lower blood pressure and heart rate, improved mental concentration, and stress relief. At Legend Martial Arts we are dedicated to changing lives! We teach discipline, confidence, and respect, through martial arts, while helping you reach your goals, in fitness and in life! We teach Taekwondo, Krav Mega and Tai Chi. In addition, we provide bully prevention seminars and ladies self defense classes.

## Keepers of the Sound God.

### Greater Harvest North Church

The Keepers of the Sound of God is the live band that leads church services every week along with the worship team. Bishop Charles Niblet and his wife founded Greater Harvest North Church in March 1994 and have been pastors and teachers there ever since. It is a dynamic, spirit filled, multi-cultural church which tries to allow visitors to feel the presence of God so compelling that most have become members on their initial visit.

Jan's Musical Memories began in 2005 in the Metroplex to provide vocal entertainment for a variety of senior living facilities. I now cover

bully prevention seminars and ladies self defense classes.

### Children's Chorus of Greater North Texas

The Children's Chorus of Greater North Texas (CCGNT) helps foster the love of singing for youth in the North Texas area. Its mission is to give children the experience of musical artistry and excellence in a group that reflects the diversity of Greater North Texas. Founded in 2003, the Children's Chorus of Greater North Texas is more than a group of children who sing exceptional music well. The Chorus provides a community where children learn and practice critical values such as integrity, responsibility, caring, respect for others, teamwork, and a love of beauty. The Chorus regards children as artists and musicians worthy of respect. The Chorus performs in several concerts within the community. Heidi Scheibmeir is the music director of the Chorus.

Canyon Creek Players

The Canyon Creek Players were formed in 2020 and slowly evolved into a small trio performing music from the 1950s to the 1980s, as well as obscure and original material that we deem as interesting and performance worthy. The band is William Breithaupt on African drum, Dennis Graham on electric guitar and vocals, and Gil Nelson on baritone ukulele and vocals. The Canyon Creek band will perform a variety of songs from the 1950s to the 1980s including tunes by Elvis, Rick Nelson, Fleetwood Mac, Cyndi Lauper, Tracy Chapman.

Grayson, Collin, Bonham, Denton,  
Dallas, Tarrant and Wichita  
Counties in Texas singing for  
seniors and private parties. My  
variety of music (Broadway, Pop  
Standards, Big Bands, Nostalgic  
Oldies, Early Rock 'n Roll, Classic  
Country as well as special holiday  
themes) and enthusiastic love for  
performing deliver nostalgic fun  
for all generations.

# Workshops

Workshops will be held in the kitchen of the Municipal Ballroom

10:00 am - 11:00 am	Energy Providers - How to decide.	Justin Jennings
11:30 am - 12:30 am	Sustainable Beauty: Monarch Way-stations	Linn Cates
1:00 pm - 2:00 pm	Solar Energy Workshop	Angel Ridge Roofing & Solar
2:30 pm - 3:30 pm	Turn Your Food Waste into Garden Gold! Vermicomposting Basics, Build, and Q&A	Michelle Haynes

Sustainable Beauty: Monarch Way-stations – presented by Linn Cates

This workshop will focus on the plight of the Monarch Butterfly, a species that migrates annually from Central Mexico to Southern Canada and back. Native plants provide the necessary nectar and hosting of larvae. Participants will learn what they can do in their own properties to support this endangered species and enjoy a connection to the natural world.

Solar Energy Workshop – presented by Angel Ridge Roofing & Solar

## Energy Providers – How to decide. – presented by Justin Jennings

## Turn Your Food Waste into Garden Gold! Vermicomposting Basics, Build, and Q&A- presented by Michelle Haynes

If you've heard about vermicomposting — a composting method in which worms convert food scraps into an amazing garden amendment — and want to try or just have questions, join this free class on Earth Day! Michelle Haynes, Grayson County resident and avid composter, will share the how and why of vermicomposting as a simple, small-space method of converting non-meat food scraps into a garden supplement. This is different from making a pile of yard waste and letting it break down over time. And, vermicomposting worms are not the same as earthworms. Michelle will demonstrate how to build a simple vermicompost bin or bag. Bring your own plastic bin or large, plastic pet food bag and you can create your own composter at the class! (This is a good use for a damaged/cracked storage bin, although the bin should not be clear.) This class is appropriate for anyone who wants to boost their gardens with the power of worm compost, or anyone who wants to divert their food waste from the landfill.

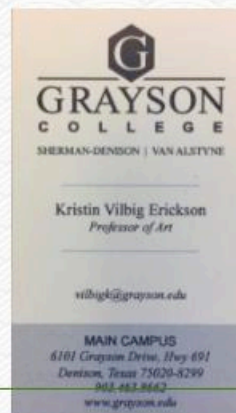

Children's events are designed by various sponsors each year to stimulate, educate, and just plain have fun. We have had games, art projects, recycle projects, and many more over the years. Below we will post what is happening this year. Bring your children and enjoy!

Sponsors providing Children Activities Include:

John Allen

Traveling Magic Show

Activity TBD

Circle Tree Community School

Circle Tree Community School will offer a make-your-own scratchboard project. They provide cardboard, crayons, and black paint mixed with a portion of dish soap. Kids will cover their board with color and then paint over it. Once their paint has dried, they can scratch designs and pictures revealing the colors below!

Community Flower Vase Project

Texoma Earth Day Festival will sponsor a community flower vase project. Stop by our table and create a flower to add to

our vase. We will provide paper, crayons, markers, colored pencils, and scissors. Draw, color and cut out your flower, and then place it on the backdrop for our vase.

### Grayson County 4-H Youth Development

Kids will make decorative items to enhance their homes or gardens. The purpose of the 4-H Clover Kids Program is to help youth learn social skills, develop self-esteem and build family strengths. The goal is to promote children's positive development through cooperative learning and developmentally appropriate activities

## Children's Clothing Swap

9-4 on the Municipal Ballroom stage

Bring unneeded or outgrown children's clothing, and take what you need. There will be no need to check in or check out. We will have people on site to assist, but they will not monitor the amount of clothing anyone takes.

Clothing may be dropped off early on Friday between 3:00 and 5:00 pm. It can also be dropped off during the event, the earlier the better.

Everything must be clean and in good condition. Please know the sizes of the clothing and be prepared to help sort as you drop off.

The Childrens Clothing Swap is sponsored by Adrian Hinman and Red River Unitarian Universalist Church.

Unclaimed clothing will be donated or reserved for future clothing swap events.

## Plant Swap

9-4 on Festival Grounds

Bring what you want, take what you want. Plan to meet other gardeners and plant lovers while also enjoying the Texoma Earth Day Festival.

The Plant Swap is a coordinated event of the Texoma Earth Day Festival and will take place on the festival grounds at Lucy Kidd-Key Park (Sherman Municipal Grounds). The swap is sponsored by Dafne Stengel, The Mustard Seed, and the Texoma Earth Day Festival.

We have very simple guidelines:

1. Bring your own plants & containers
2. Everyone must have at least one plant or seed packet to trade
3. All items must be labeled with the plant name and care instructions
4. Swapping plants must be pest-free and healthy

## Trashion Fashion VII

Open to all area artists, designers, college art students and high school art students in their junior and senior year.

The Grayson College Visual Arts Department will be hosting “Trashion V”, a runway style trash fashion show, in conjunction with the 2022 Texoma Earth Day Festival in Sherman, Texas on Saturday, April 23.

According to wiseGEEK.com “Trashion is a word which is used to refer to objects and garments produced from discarded, unwanted, and leftover items. Trashion encompasses everything from home décor to garments, and public interest in trashion started exploding in the late 1990s, when being environmentally ethical while staying chic started to come into style. Trashion is considered to be a form of upcycling which refers to repurposing things for new uses, rather than simply getting rid of unwanted objects.

This word is a fusion of the words “trash” and “fashion,” and it is meant to imply that things made from recycled objects don’t need to be lacking in style. While anyone can browse a vintage or thrift store, someone interested in trashion might also delve into free boxes, piles of discards destined for the dump, and other more unconventional sources for potential artistic inspiration.

Trashion jewelry often uses discarded and waste metals, both from within the jewelry industry and outside of it, and artists may use things like bottle caps, discarded containers, and so forth to make their jewelry more visually interesting and to remind consumers of the jewelry’s origins. Trashion clothing often involves custom sewing, integrating several sources of discarded textile materials in designs which can vary widely, from sleek and hip to more casual and laid-back.”

Work should include no less than eighty percent (80%) recyclable trash, found objects, and discarded fabric material.
