Sponsor Information

Why be a Sponsor?

Earth Day Festival is a free event. Families and individuals may attend workshops, visit vendors, listen to music, and participate in all related events at no charge, learning in the process about stewardship of the planet.

It is through the Sponsor Program and vendor booth rental that the Earth Day Festival is funded. Please consider making a difference in the community by being a Sponsor for the Texoma Earth Day Festival. Sponsorship may be monetary or in the form of providing a service to the festival. All sponsorship proceeds will be used to cover direct expenses of the Earth Day Festival

Texoma Earth Day Festival is a 501(c)(3) Non-Profit Corporation

All levels of sponsorship include:

- recognition on the website, flyers, printed program, signage at the festival and during the hourly announcements from the entertainment stage.
- free vendor space upon request.
- invitation to all special events organized by the festival planning committee

3:00 pm - 3:30 pm	Trashion VIII - Grayson College Art Department	Fashion Show of designs made from recycled / repurposed materials
3:30 pm - 4:00 pm	Final wrap up	

[Edit](#)

The Red River Valley Dulcimer Club is a group of musicians from the north Texas and southern Oklahoma area. We love getting together to enjoy the great traditional music of the 1800’s from the Appalachian Mountains. Our goal is to promote both the music and the traditional instruments created to play it. Unlike many clubs, our membership is free. Anyone playing an acoustic instrument is invited to join our club.

We will be playing traditional music with Appalachian mountain dulcimers and hammer dulcimers along with other instruments. We will also demonstrate the dancing toys that were so popular with the children in the old days.

[Keepers of the Sound God.](#)

The Keepers of the Sound of God is the live band that leads church services every week along with the worship team. Bishop Charles Niblet and his wife founded Greater Harvest North Church in March 1994 and have been pastors and teachers there ever since. It is a dynamic, spirit filled, multi-cultural church which tries to allow visitors to feel the presence of God so compelling that most have become members on their initial visit.

Band on Grand

The Band on Grand is made up of Austin College Faculty members, counselors, administrators, and one brave and patient student. They have been playing together for a little over a year and they’re ready for their first outdoor gig.

Jan’s Musical Memories began in 2005 in the Metroplex to provide vocal entertainment for a variety of senior living facilities. I now cover Grayson, Collin, Bonham, Denton, Dallas, Tarrant and Wichita Counties in Texas singing for seniors and private parties. My variety of music (Broadway, Pop Standards, Big Bands, Nostalgic Oldies, Early Rock ‘n Roll, Classic Country as well as special holiday themes) and enthusiastic love for performing deliver nostalgic fun for all generations.

Martial Arts provides the benefits of increased mobility, improved strength and power, improved flexibility, improved coordination, lower blood pressure and heart rate, improved mental concentration, and stress relief. At Legend Martial Arts we are dedicated to changing lives! We teach discipline, confidence, and respect, through martial arts, while helping you reach your goals, in fitness and in life! We teach Taekwondo, Krav Mega and Tai Chi. In addition, we provide bully prevention seminars and ladies self defense classes.

The Children’s Chorus of Greater North Texas (CCGNT) helps foster the love of singing for youth in the North Texas area. Its mission is to give children the experience of musical artistry and excellence in a group that reflects the diversity of Greater North Texas. Founded in 2003, the Children’s Chorus of Greater North Texas is more than a group of children who sing exceptional music well. The Chorus provides a community where children learn and practice critical values such as integrity, responsibility, caring, respect for others, teamwork, and a love of beauty. The Chorus regards children as artists and musicians worthy of respect. The Chorus performs in several concerts within the community. Heidi Scheibmeir is the music director of the Chorus

Little Goddess Trybe

Little Goddess Trybe is a Fat Chance Bellydance performance Troupe based in Sherman Texas. We do a type of belly dance that is improvisational; that means that we do not choreograph our performances. We improv using language cues which consist of glances and head movements. See if you can spot them! If you’re interested, we have we have classes on Thursday night at Sherman parks and recreation. Catch one of us after the performance for a card for a free class and you can try it out.

Rylin Rivas – Vocalist

Rylin was born in Los Angeles but raised in Sherman where he found his passion for music and inspiration to become a professional vocalist. Growing up, he was in the Sherman High School Choir which helped find his voice to become the artist he is now. In 2018, Rylin won First Place in the local competition “The Choice” organized by House of Eli. Since then, he performs in local venues, restaurants and bars including The Milieu Wine Bar and The Old Iron Post in Sherman.

Grayson Art Department – Trashion Fashion VIII

Open to all area artists, designers, college art students and high school art students in their junior and senior year.

[Click here for more information](#)

[Click here for Registration in Trashion VIII](#)

The NEW CRUSTY MINSTRELS

makes singing along fun again. The “Crusties” play instrumentals and popular acoustic music on guitars, bass and autoharp with sweet harmonies and familiar Earth Day songs. The “Crusties” are John and Diane McCrady (playing and singing together for over 25 years as the Old Crusty Minstrels), Betty Scott (Three Time International First Place Autoharp Champion at the Walnut Valley Music Festivals also known as Winfield Acoustic Music Festival) and Drake Rogers (guitarist, singer and long-time member of Dallas Folk Music Society. He has played with Lu Mitchell and Catch-23 at the Pocket Sandwich Theater and sung with the Contemporary Chorale). Contact John McCrady for bookings at 972-620.1785, or dandjmcrcrady@gmail.com

Workshops

Workshops will be held in the workshop tent on the festival grounds – see the map

12:00 pm - 1:00 pm	Monarch Gardens	Linn Cates
1:30 pm - 2:30 pm	Bees & Bee Keeping	STG Farms
3:00 pm - 3:30 pm	Natural Mosquito Control	Amy Hoffman-Shehan

[Edit](#)

Workshop 1 – Monarch Gardens

Learn how to create and maintain a butterfly garden from a Master Naturalist

Workshop 2 – Bees and Bee Keeping

This workshop will cover Honeybees, their importance to our food chain, threats they face, a look at the “beekeeping year,” products from the hive in addition to honey, benefits of pure local honey, misconceptions about bees and honey, hive organization and behavior, and a question and answer period

Workshop 3 – Natural Mosquito Control

Amy Hoffman-Shehan will present a workshop on natural mosquito control that does not harm more desirable pollinators. Attendees will learn how create a simple mosquito trap that attracts female mosquitos to lay their eggs in an atmosphere that won’t support survival.

Children’s Events

Having fun and learning – a great combination

Children’s events are designed by various sponsors each year to stimulate, educate, and just plain have fun. We have had games, art projects, recycle projects, and many more over the years. Below we will post what is happening this year. Bring your children and enjoy!

Recycled Art Contest. Sponsored by Sherman Parks & Rec.

Recycled Art Contest Rules

Earth Day is a wonderful day to celebrate everything about our planet. Sherman Parks & Rec is partnering with the Earth Day Festival to host a Recycled Art Contest. Participants in grade school are encouraged to display their art.

The rules of the competition are simple. All art must accomplish one of two things: either the art must celebrate our planet, or it must utilize recycled material. If a painting, drawing, or coloring is submitted the art work must lay flat. If a 3D piece of art is submitted, it must not take up any more space than 1 cubic foot. All artwork will need to be submitted to the Parks and Recreation no later than April 18 by the end of the day.

Submissions should also have the bottom portion of the contest rules attached to the art.

The art will be on display at the Municipal Ballroom from 9AM-4PM. It can be picked up at the Parks and Recreation office between Monday and Friday the following week.

[Download Poster.](#)

Grayson College Dept of Visual Arts – Newspaper origami planted boxes, origami hats & swords

Texoma Quilt Guild – Reusing clothing; Younger children will pick out fabric scraps, adults and older children will do the sewing. Emphasis on design, rather than sewing skills.

ArtRageous Salon – interactive painting for everyone to help. Organized by Krystal Skinner

Cireletree School –

1. **Paint the Ocean** – We will have poster board with waves drawn in marker laid out on the floor. Children will be able to use their fingers to finger paint the waves. We will have water color paint already prepared in certain colors, likely blues, greens and white.

2. **Make a Sea Creature** – We will also have a station where young people can draw and cut out sea creatures from construction paper and glue them onto bottle caps. They can then choose to play with them on the ocean poster board. They can take these creatures home with them.

3. **Marbled Pebbles** – We will have another station that is more of a science activity with pebbles, a bowl of water and nail polish. Young people can tie their pebble with a string and then dip it into our bowl of water with nail polish floating in it. Once they pull out the pebble, it will be coated in nail polish. This will demonstrate a similar effect that oil spills have on our planet’s waters.

4. **Tornado bottles** – These will be made ahead and be offered more as an activity to play with and test while young people visit our table. Two bottles are connected by mouth and filled with enough water so that when the water moves from one bottle to the next, one can twirl it creating a “tornado” or whirlpool.

5. **Erosion bottles** – These will also be made ahead. Three bottles will be filled with soil, mulch and grass seeds. Children can use a watering can to water the bottles and witness how erosion works and how it is prevented by the mulch and grass seeds. There will be a cup hanging from each bottle to capture the water from the can. In the cup, one can see the soil dirty the water from erosion.

Fred Douglas Learning Center – **Recycled Sculpture Show**

Children’s Clothing Swap

9-4 on the Municipal Ballroom stage

Bring unneeded or outgrown children’s clothing, and take what you need. There will be no need to check in or check out. We will have people on site to assist, but they will not monitor the amount of clothing anyone takes.

Clothing may be dropped off early on Friday between 3:00 and 5:00 pm. It can also be dropped off during the event, the earlier the better.

Everything must be clean and in good condition. Please know the sizes of the clothing and be prepared to help sort as you drop off.

The Childrens Clothing Swap is sponsored by Adrian Hinman and

Red River Unitarian Universalist Church.

Unclaimed clothing will be donated or reserved for future clothing swap events.

Fred Douglas Learning Center

Recycled Sculpture Art Show

Students and their parents create fun and creative sculptures from found and recycled items.

Trashion Fashion VIII

Open to all area artists, designers, college art students and high school art students in their junior and senior year.

The Grayson College Visual Arts Department will be hosting “Trashion VIII”, a runway style trash fashion show, in conjunction with the 2023 Texoma Earth Day Festival in Sherman, Texas on Saturday, April 22.

According to wiseGEEK.com “Trashion is a word which is used to refer to objects and garments produced from discarded, unwanted, and leftover items. Trashion encompasses everything from home décor to garments, and public interest in trashion started exploding in the late 1990s, when being environmentally ethical while staying chic started to come into style. Trashion is considered to be a form of upcycling which refers to repurposing things for new uses, rather than simply getting rid of unwanted

objects.

This word is a fusion of the words “trash” and “fashion,” and it is meant to imply that things made from recycled objects don’t need to be lacking in style. While anyone can browse a vintage or thrift store, someone interested in trashion might also delve into free boxes, piles of discards destined for the dump, and other more unconventional sources for potential artistic inspiration.

Trashion jewelry often uses discarded and waste metals, both from within the jewelry industry and outside of it, and artists may use things like bottle caps, discarded containers, and so forth to make their jewelry more visually interesting and to remind consumers of the jewelry’s origins. Trashion clothing often involves custom sewing, integrating several sources of discarded textile materials in designs which can vary widely, from sleek and hip to more casual and laid-back.”

Work should include no less than eighty percent (80%) recyclable trash, found objects, and discarded fabric material.
